ALEXANDER

NEW COLLECTION

“I believe  
that there  
is a painting  
inside every  
woman.”

Mila is fascinated by female sensuality, and she takes inspiration from fashion, cinematography and literature. Her premier release of hand signed editions make a stylish and thought provoking statement about feminism and femininity, power and empowerment, fashion and fascination.

These striking limited editions have a high gloss finish which enhances both their impact and their intention by evoking the high fashion plates of magazines such as *Vogue*.

Mila maintains that the partial concealment of the face serves not to hide an identity but rather to highlight it, and she encourages the viewer to recognise that demeanour, confidence and strength are as much a part of our identity as our facial expressions.

**“for me the masks create a sense of mystery.”**

I want the viewer to wonder who is the woman behind the mask? Part of their strength is to not reveal themselves fully, these woman are not vulnerable – they are symbols of strength ”

Mila directs her pieces from start to finish - she finds her muse, personally designs and creates their outfits, choreographs the shoot, produces life drawings and then is finally ready to start painting in her studio. She works with a combination of oil paints and varnish to achieve a glossy fashion magazine style finish. Mila describes her works as “controversial, sensual and feminine” as she juxtaposes the female figure with the masculinity of tattoos and cigarettes - challenging society’s expectations of femininity.

She sometimes leaves hidden messages in her paintings such as stories within tattoos, or a love-poem in the background to suggest that there is a mystery behind the muse.

**“I’m always looking for unusual and powerful faces to paint, I love feminine allure and attitude.”**
